## Taxonomy

Kingdom	Phylum	Class	Order	Family
Animalia	Chordata	Reptilia	Squamata	Lacertidae

**Taxon Name:** *Dinarolacerta mosorensis* (Kolombatović, 1886)

### Synonym(s):

- *Lacerta mosorensis*

### Common Name(s):

- English: Mosor Rock Lizard

### Taxonomic Notes:

The isolated eastern subpopulation in Montenegro has been proposed as a separate species (Ljubisavljević *et al.* 2007).

## Assessment Information

**Red List Category & Criteria:** Vulnerable B2ab(iii) [ver 3.1](#)

**Year Published:** 2009

**Date Assessed:** December 14, 2008

### Justification:

Listed as Vulnerable because its area of occupancy is less than 2,000 km<sup>2</sup>, its distribution is severely fragmented, and the extent and quality of its habitat are declining.

### Previously Published Red List Assessments

2006 – Vulnerable (VU)

## Geographic Range

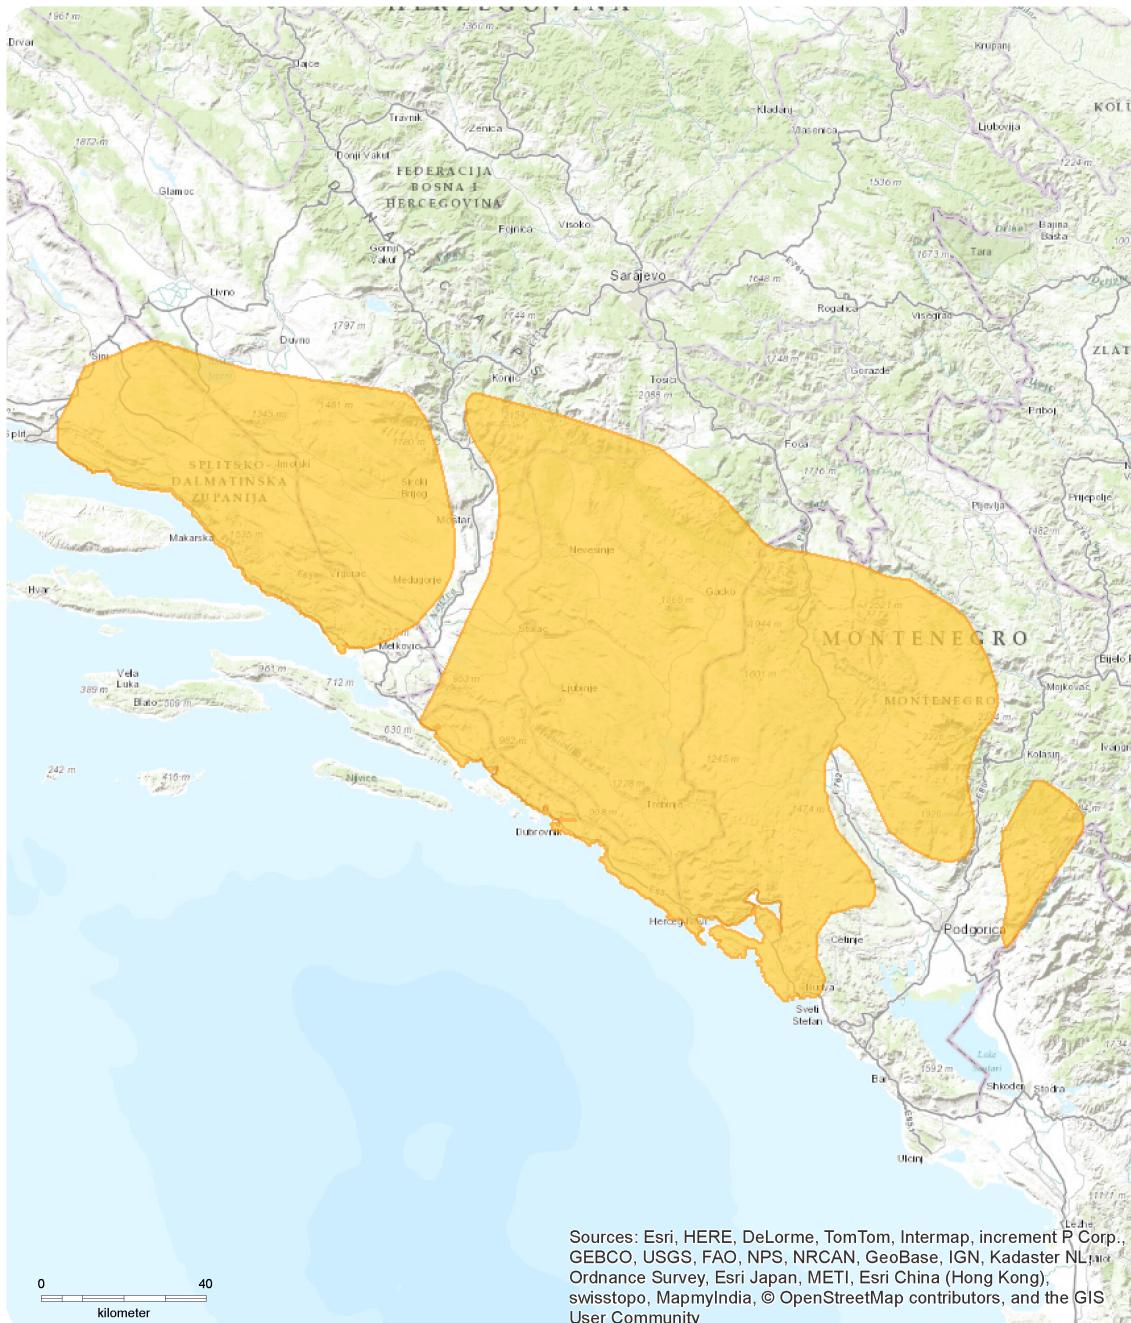

### Range Description:

This species is found in the southwestern Dinaric mountain range of southern coastal Croatia, southern Bosnia-Herzegovina and Montenegro. It may be present in northern Albania but further surveys are needed to confirm this. It occurs from 450 to 1,900 m asl.

### Country Occurrence:

**Native:** Bosnia and Herzegovina; Croatia; Montenegro

# Distribution Map

## *Dinarolacerta mosorensis*

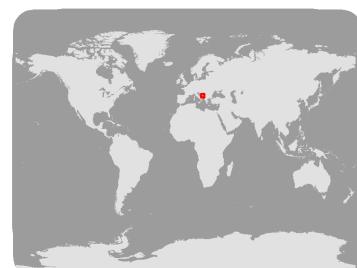

### Range

Extant (resident)

### Compiled by:

IUCN (International Union for Conservation of Nature)

NE DD LC NT < VU > EN CR EW EX  
VULNERABLE

The boundaries and names shown and the designations used on this map do not imply any official endorsement, acceptance or opinion by IUCN.

## **Population**

It is not a common species and has a patchy distribution.

**Current Population Trend:** Decreasing

## **Habitat and Ecology (see Appendix for additional information)**

It is largely found in humid, rocky, montane areas of exposed karst. The species inhabits open woodland and sites with a rich vegetation cover. The females lay a single clutch of four to eight eggs.

**Systems:** Terrestrial

## **Threats (see Appendix for additional information)**

It is threatened by the loss of suitable habitat due to logging, including within protected areas. Collection of animals for the pet-trade was a threat in the past. It is likely that some small-scale illegal trade continues.

## **Conservation Actions (see Appendix for additional information)**

It is listed on Annex III of the Bern Convention and is protected by national legislation in some range countries. It is present in a number of protected areas.

## **Credits**

**Assessor(s):** Jelka Crnobrnja Isailovic, Rastko Ajtic, Milan Vogrin

**Reviewer(s):** Cox, N. & Temple, H.J. (Global Reptile Assessment)

## Appendix

### Habitats

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Habitat	Season	Suitability	Major Importance?
1. Forest -> 1.1. Forest - Boreal	-	Suitable	-
1. Forest -> 1.4. Forest - Temperate	-	Suitable	-
3. Shrubland -> 3.4. Shrubland - Temperate	-	Suitable	-
0. Root -> 6. Rocky areas (eg. inland cliffs, mountain peaks)	-	Suitable	-

### Use and Trade

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

End Use	Local	National	International
Pets/display animals, horticulture	No	Yes	Yes

### Threats

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Threat	Timing	Scope	Severity	Impact Score
5. Biological resource use -> 5.1. Hunting & trapping terrestrial animals -> 5.1.1. Intentional use (species is the target)	Past, unlikely to return	-	-	-
	Stresses:	2. Species Stresses -> 2.1. Species mortality		
5. Biological resource use -> 5.3. Logging & wood harvesting -> 5.3.5. Motivation Unknown/Unrecorded	Ongoing	-	-	-
	Stresses:	1. Ecosystem stresses -> 1.2. Ecosystem degradation		

### Conservation Actions in Place

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Conservation Actions in Place
In-Place Land/Water Protection and Management
Conservation sites identified: Yes, over entire range

### Conservation Actions Needed

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

<b>Conservation Actions Needed</b>
2. Land/water management -> 2.1. Site/area management
5. Law & policy -> 5.1. Legislation -> 5.1.2. National level
5. Law & policy -> 5.4. Compliance and enforcement -> 5.4.1. International level

## Research Needed

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

<b>Research Needed</b>
1. Research -> 1.2. Population size, distribution & trends
1. Research -> 1.3. Life history & ecology
1. Research -> 1.5. Threats
1. Research -> 1.6. Actions
3. Monitoring -> 3.1. Population trends

## Additional Data Fields

<b>Distribution</b>
Lower elevation limit (m): 450
Upper elevation limit (m): 1900
<b>Population</b>
Population severely fragmented: No
